## New Lifts New Lift & Escalator Solutions

### A fusion of inspirational and innovative concepts

At **Glowsworth Lift & Escalator** we set out to continuously develop the very best in representing, distributing, sales & marketing of various brands of elevators manufacturers, maintaining and the installing of new lifts. Our solutions and services are becoming recognized as being highly regarded in the industry especially in terms of performance, reliability and of course, safety.

All of our products have been designed with total flexibility in mind. We are more than ready to meet the challenging, innovative aesthetic and performance requirements of our customers.

From simple single functional equipment to high rise, high speed group systems operating at high speed, which use the latest state-of-the-art industry technology.

Types of systems include traction, hydraulic, single units, escalators and walkways.

We have a wide range of lifts to suit all types of establishments. Let us meet your expectations whether you are in need of:-

- A goods lift to transport stock around different levels of a building
- An office lift or lifts for you and your staff
- Passenger or scenic lifts
- Hospital lifts or service lifts

Maybe you need special applications or bespoke designs. Not a problem for us!

If you would like to discuss having a new lift installed, be sure to get in touch today.

## A fully comprehensive service

We provide all of our clients with a full and comprehensive service. Find out more about our product portfolio range. Beginning with a simple stair lift or goods-only lift through to highly sophisticated, controlled, multi-group, high rise, high speed passenger lifts, we have them all.

When it comes to new lifts and installations, our company has an experienced and proven track record within the business. We constantly strive to provide:-

- Turnkey solutions with design, specification, through to test and commission. Expect to also benefit from future product and service support.
- Experience in working within the construction industry namely developers, specifiers and main contractors. We also deliver through partnering.
- A stringent network of manufacturers and OEM suppliers to facilitate exemplary value, design and product support.

## Efficiency isn't just about energy

We are continuously researching, developing, assisting and advising our clients in helping to reduce their energy footprints. Our professional consultants will provide advice on how to reduce your energy footprint and how to reduce associated costs by selecting the correct products and systems. By monitoring the total costs, we offer realistic, efficient options that are positive financially as well as energy efficient to our clients.

We fully understand that all of our customers want to achieve a high energy, efficient return on their product investments. Invest in our new lift and escalator solutions to benefit from:-

- A diverse product range
- Open protocol systems
- Energy efficiency
- Proven design
- Bespoke designs
- Long term reliability

## Effective Maintenance Programmes

Lifts, escalators, moving walkways and other types of vertical transportation are a major capital investment. They play a crucial part of a building's infrastructure. Just like other types of machinery, vertical transportation systems need a reliable and effective maintenance programme.

We provide **premium maintenance services** to **maximize the lifespan of your equipment** while maintaining the image of the building itself. Here are just some of the markets we serve:-

- Commercial offices
- Shopping Malls
- Shopping centers
- Hospitals and the NHS
- Health care support
- Local Government
- Heavy industries
- Railways and airports
- Marine and shipping
- Hotels and hospitality
- Private establishments

## Rely On Us

**Glowsworth Lift & Escalator's** consultative approach will help you prioritize the real costs associated with vertical transportation systems. We ensure our clients benefit from maximum reliability and dependability in every project undertaken. Attention to detail and safety is our priority. Here at **Glowsworth Lift & Escalator** we are committed to health and safety for both our employees and people who use vertical transportation systems.

Rest assured, we never compromise on health or safety and promise to provide safe working systems. We also deliver up to date advice and support. **Glowsworth Lift & Escalator** promises:-

- Honesty
- Integrity

- Flexibility
- Transparency
- Openness
- Responsiveness
- Professionalism

**Glowsworth Lifts & Escalator** embraces the latest technological advances in the world of vertical transportation. We have developed an extensive range of maintenance systems that allows us to service the majority of systems on the market. For your maintenance requirements, there's no need for you to be tied to your original systems provider. Let us carry out the task for you at cost effective competitive cost.

#### **Achieving Our Objectives**

Our dedicated team will carefully evaluate your objectives and plan sensible, uncomplicated levels of maintenance. This will be undertaken and completed within a budget that represents great value for money.

We meet the needs of our clients in lift maintenance, new lifts; lift refurbishment along with disabled lifts. If it's an outside of the box project, **Glowsworth Lift & Escalator** can come up with the right solution.

## LIFT MAINTENANCE

#### Challenge our inspiration

Like other forms of machinery, vertical transportation systems need a reliable, efficient and effective preventative maintenance programme. That will help to maximize the lifespan of the equipment while maintaining the image of the building.

Here at **Glowsworth Lift & Escalator** we are continually focused on developing and introducing new ways of doing business. We also provide affordable maintenance solutions. If it's an out of the box project or a tailor-made bespoke agreement you're looking for, **Glowsworth Lift & Escalator** is the perfect choice.

#### Flexible options

Whatever level of vertical transportation maintenance you are looking for, our levels of cover represent true value for money. As a company we never compromise on quality, safety or customer satisfaction.

Each level of cover comes with a range of optional solutions, or if you're after something special for your needs, just ask. We have the answers and will more than meet the challenge.

Our ranges of agreements are:

- **SUSTAIN** - Basic entry level with a range of options.
- **IMPACT** - Improved response times and cost control coverage.
- **INTERGRATED** - Optimum coverage and cost control with dynamic coverage.
- **BESPOKE** - Fully individual tailor made level of cover and service.

#### What to expect from our lift maintenance services

As an established maintenance lift & Escalator service provider, **Glowsworth Lift & Escalator** prides itself on excellent customer service and technical expertise. As with any type of equipment, old or new, planned preventive maintenance is essential for an elevator's longevity and performance. We can maintain any type of elevator from a basic lift through to the most complex group or high-speed passenger lifts & Escalators.

Our range of lift maintenance agreements include:-

- Standard
- Threshold
- Semi-comprehensive
- Fully comprehensive
- Bespoke

#### Lift maintenance agreements

Our lift maintenance agreements are tailored to suit individual elevators. We always take into consideration the following customer requirements, site conditions and importance of use. Want to find out more? Included in every lift maintenance package with **Glowsworth Lift & Escalator** is a **24 hour/365 day** a year call out service.

Our maintenance programme evaluates every component of your vertical transportation system. Each piece of equipment will be inspected at the start of the service engagement period. Detailed reports are then produced to highlight any areas, potential future concerns or factors which may affect equipment performance.

Our highly skilled team will ensure that corrective, preventative measures are put in place to protect your elevator system. Simplifying maintenance is the key to our success.
